Python for Data Science Practical

Practical - I

Roll No. :48	Name:Kaushal Yadav
Class : SYBS .c I.T	Batch : 00
Date of Assignment :	Date/Time of Submission :15/07/2026

1a. Write a python code to print your profile.

Code:

```
name=(input("Enter your name:"))
age=(input("Enter your age:"))
rollno=(input("Enter your roll no:"))
mobilenno=(input("Enter your mobile no:"))

print("====Profile====")
print("Name:",name)
print("Age:",age)
print("Roll No:",rollno)
print("Mobile no:",mobilenno)

print("\n kaushal 48")
```

Output:

```
Enter your name:kaushal
Enter your age:19
Enter your roll no:48
Enter your mobile no:9794246723
====Profile=====
Name: kaushal
Age: 19
Roll No: 48
Mobile no: 9794246723

kaushal 48
```

1b. write a python code to print the addition of two numbers.

Code:

```
a = int(input("Enter your number :"))
b = int(input("Enter your number :"))
sum = a + b
print("Addition =", sum)

print("Kaushal ===48")
```

Output:

```
Enter your number :9
Enter your number :5
Addition = 14
Kaushal===48
|
```

1c. Write a python code to print the square root of a number.

Code:

```
import math

num = float(input("Enter a number: "))

sqrt_num = math.sqrt(num)

print("Square root of", num, "is", sqrt_num)

print("Kaushal 48")
```

Output:

```
Ca11C.py
Enter a number: 2
Square root of 2.0 is 1.4142135623730951
Kaushal 48
|
```

1c. Write a python code to calculate area of Triangle

Code:

```
base = float(input("Enter the base: "))
height = float(input("Enter the height: "))

area = 0.5 * base * height

print("Area of Triangle =", area)
print("Kaushal==48")
|
```

Output

```
Ca11C.py
Enter the base: 4
Enter the height: 5
Area of Triangle = 10.0
Kaushal==48
|
```

:

1d. Write a python code to swap two variables.

Code:

```
a = int(input("Enter the first number: "))
b = int(input("Enter the second number: "))

temp = a
a = b
b = temp

print("Swapping of two numbers =", a, b)
print("Kaushal 48")
```

Output:

```
callc.py
Enter the first number: 9
Enter the second number: 18
Swapping of two numbers = 18 9
Kaushal 48
```
